Premium crop baling solutions - the whole assortment

TRIOWRAP®

TRIOWRAP®

Try our bale wrap guide on triowrap.com

THE STORY

Triowrap was introduced in the 1980's and is one of the worlds most used bale wrap. We have a long history within the baling application and Triowrap is well tested by contractors, machine manufactures, independent research institutes and SLU (Swedish University of Agricultural Sciences).

The Triowrap premium film assortment offers you highest reliability due to best running performance, solutions for wrappers as well as ideal characteristics for securing the valuable feed.

A full range of products to cover all needs when baling crops - For best economical silage with a sustainable leadership!

"We're running a contracting business for baled silage and have been using the Triowrap products for more than 20 years now"

Steffen Rüttger, German Contractor

MANTLE FILM FOR BEST FILM ON FILM PERFORMANCE

TRIOWRAP®

The Original

TRIED, TESTED, PROVEN

- Tried and tested with high performance and high silage quality
- Reliable choice for all wrapping applications
- Premium multilayer blown film up to 7 layers

PRODUCT DATA

Dimensions	Reels/pallet	Colour	Core	UV-Protection	Application
500 mm x 0.025 mm x 1800 m ∞	24	White, Light green, Green, Black	Plastic (PP) core	12 months	For round and square bales
750 mm x 0.025 mm x 1500 m ∞	15	White, Light green, Green, Black	Plastic (PP) core	12 months	For round and square bales
750 mm x 0.025 mm x 1700 m ∞	15*	White, Light green	Plastic (PP) core	12 months	For round and square bales

∞ Available as loop, containing 30 % PCR, RecyClass certified

*Contractorwrap packaging, no box packaging for efficient handling. Also, with more meters per reel!

Also available as loop with 30% PCR

RecyClass 30% RECYCLED PLASTIC
*post-consumer origin

All our products with recycled content are certified by RecyClass.

Tried and tested a million times!

PLUS

750 mm x 0.021 mm x 1900 m∞	15	Pink, Blue, Yellow*	Premium water protected paper	12 months	For round and square bales

* Triowrap plus 1900 is also available in white, light green, green and black
∞ loop inside, containing 30% PCR, RecyClass certified

Breast cancer
Prostate cancer
Childhood cancer

You can be proud, because with this product you are donating to your local charity organization while raising awareness for cancer at the same time!

RecyClass 30% RECYCLED PLASTIC *post-consumer origin

All our products with recycled content are certified by RecyClass.

DID YOU KNOW...

...that the original idea was hatched by a farmer in New Zealand and became a reality through close cooperation between us and our New Zealand partners in 2014? The campaign, which started with the pink film to raise awareness and funds for breast cancer, primarily in rural areas, became such a success, that we decided to launch a blue bale wrap in 2015 to support prostate cancer awareness. In 2018 we completed the family: with a yellow bale wrap film we want to support childhood cancer organizations.

TRIOBALE® compressor

Takes your silage to the next level

PREMIUM MANTLE FILM FOR SECURING SILAGE VALUE

- 10-30 % higher output per reel compared to other brands - lower cost per bale!
- Patented properties – Enables optimal efficiency and tear resistance on bale!
- Increases the silage quality according to independent tests

PRODUCT DATA

Dimensions	Reels/ pallet	Colour	Stretch in machine*	Specific benefits
700 mm x 0.013 mm x 3000 m	15	Tinted white	5-13 %	Perfect for balers making small bales. For suitable machines, visit Triowrap.com.
950 mm x 0.013 mm x 3000 m	16	Tinted white	5-13 %	Perfect for stationary machines - many bales between reel changes. 25-30 % increased output compared to other brands.
1100 mm x 0.016 mm x 2400 m	16	Tinted white	15-20 %	Perfect for balers that makes mid-size bales. For applicable machines, please visit triowrap.com
1280 mm x 0.013 mm x 3000 m	16	Tinted white	5-13 %	Perfect for stationary machines – many bales between reel changes. 25-30 % increased output compared to other brands.
1280 mm x 0.016 mm x 2400 m	16	Tinted white	15-20 %	Perfect combination for mobile and stationary machines for edge to edge. 25 % increased output compared to other brands.
1280 mm x 0.020 mm x 1800 m	16	Tinted white	20-25 %	Heavy duty product for mobile and stationary balers, for all types of users with edge-to-edge coverage.
1350 mm x 0.016 mm x 2200 m	16	Tinted white	18-25 %	Can be used as one product for everything on mobile and stationary machines. 15-20 % increased output compared to other brands.
1400 mm x 0.016 mm x 2200 m ∞	16	Tinted white	18-30 %	Superior product for mobile balers for professional use and possibility to cover edge. 20 % increased output compared to other brands.
1400 mm x 0.016 mm x 4500 m	9	Tinted white	18-30 %	Highest efficiency with minimum downtime. For applicable machines please visit triowrap.com
1400 mm x 0.020 mm x 1800 m ∞	16	Tinted white	25-35%	Heavy duty product for mobile balers for all types of users with possibility to cover edge. 10% increased output compared to other brands.

∞ Available as loop, containing 30% PCR, RecyClass certified *Stretch levels for each product are stated on the reel label

Innovative mantle film for increased silage quality

Available as loop with 30% PCR

SLU

TrioBaleCompressor has been tested by the Swedish University of Agricultural Sciences (SLU) which proved better shaped bales, better airtightness and less mould, when compared to bales with net binding.

RecyClass 30% RECYCLED PLASTIC

All our products with recycled content are certified by RecyClass.

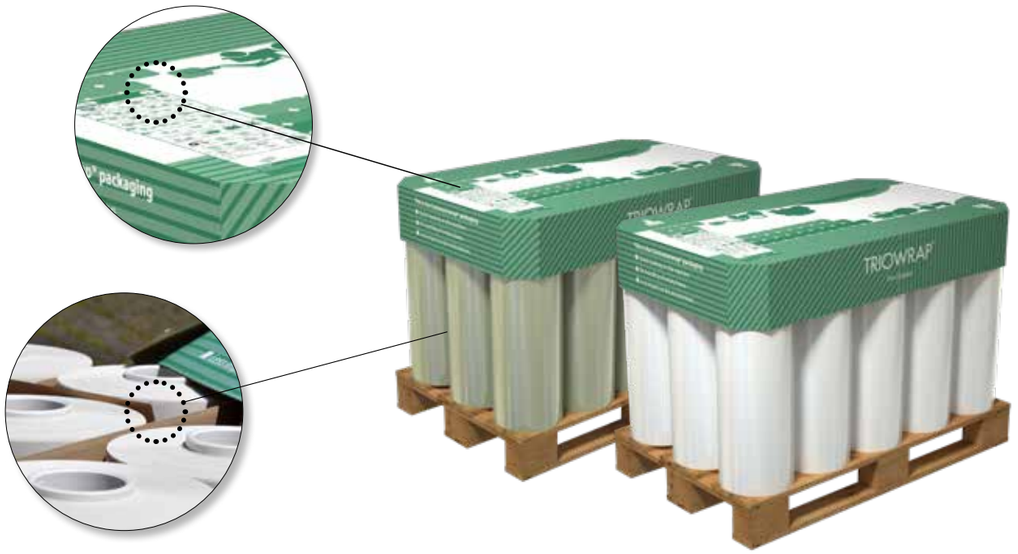

CONTRACTORWRAP® PACKAGING

- Specially developed for contractors and users with high throughput
- Quick loading of the machine
- No handling of empty boxes
- Less impact on the climate
- Cardboard protection between reels to prevent friction

ONE PIECE PACKAGING CONCEPT - UNIQUE SLEEVE

- Edge protection for safe reel handling
- 100 % recyclable plastic – can be recycled with bale wrap
- Unwinding direction on packaging for convenient loading
- One piece packaging for efficient reel changes
- Stretch levels of product on the label (TrioBaleCompressor)

LOOP

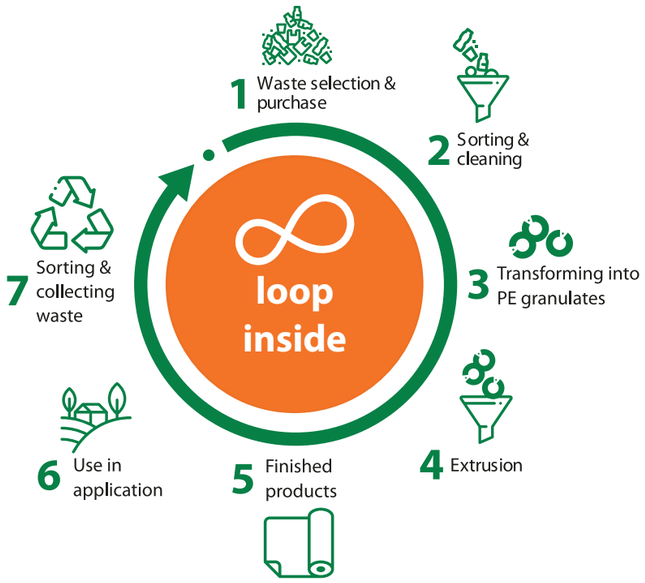

REGRANULATES

CLEANED AND SHREDDED

BALE WRAP FILM

THE LOOP PROCESS

WHAT MAKES OUR LOOP PRODUCTS SO SPECIAL

- Contain recycled content and are fully recyclable
- Close the loop - from agri to agri
- Same mechanical properties as the virgin product
- Excellent stretchability and elasticity for airtightly wrapped bales with long lasting protection
- Can be used on all types of wrappers and crops
- All our products with recycled content are certified by RecyClass

RecyClass 30% RECYCLED PLASTIC

*post-consumer origin

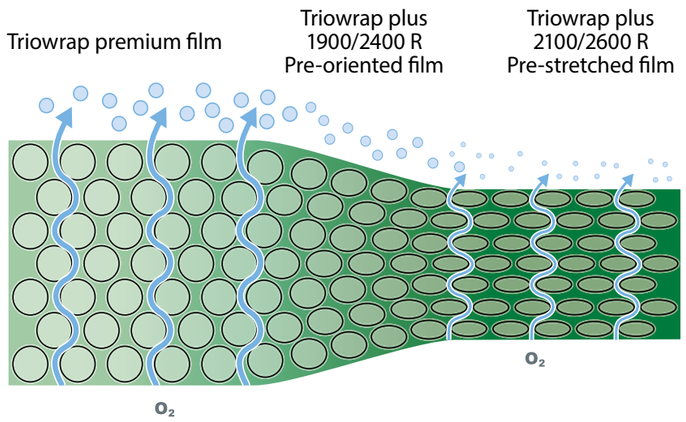

"It feels good to take a step forward for the climate with recycled plastic, especially when it works as well as it does."

Andreas Neass, Norwegian contractor

PLUSTECH™: MAKES YOU MORE EFICIENT

PlusTech is our name for a number of technology innovations that combine a special blend of raw materials, unique manufacturing processes and over 50 years of knowledge and silage expertise in different processes to achieve products with improved efficiency for end-users.

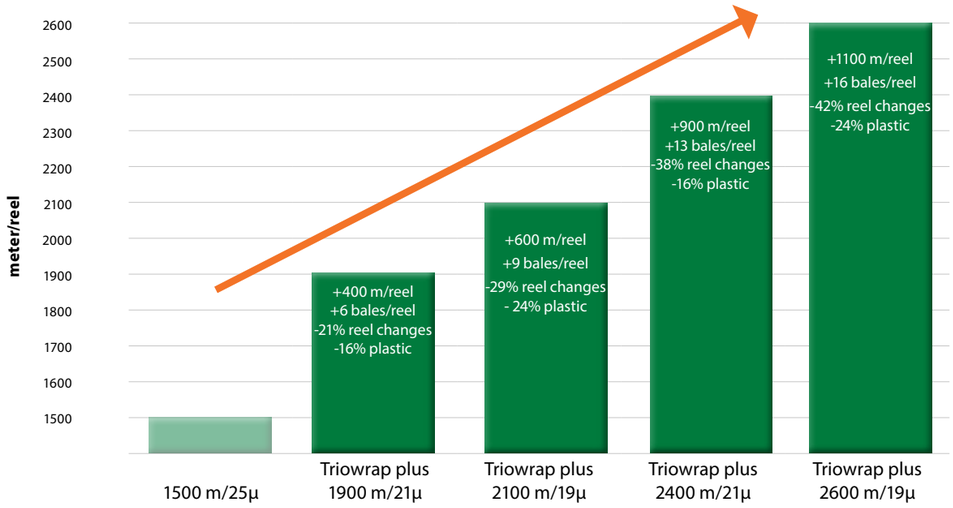

UNIQUE TECHNOLOGY FOR A THINNER PREMIUM FILM

Your benefits with PlusTech

- Less climate impact
- Optimized wrapping and ensiling properties
- No compromising on fodder quality
- Best economical silage due to highest efficiency
- Excellent tear strength
- Minimal air permeability
- Smooth bale surface
- Minimized disposal costs

Higher efficiency – Save time & money!

Based on: Round bale 1,20 m, 6 layers of film, 55 % overlap, 70 % pre stretch, when comparing to 1500 m/25µ film.

"I am wrapping 10.000 bales per year - I really need an efficient bale wrap, I can rely on. For years now, the Triowrap plus products have been the right choice for me."

Per Johnsson, Swedish Contractor

THE VALUE OF SILAGE

Making high-quality silage and preserving the nutrient value of the plant material as good as possible is the foundation for sustainable baling. Nothing affects your carbon footprint as much as feed losses.
Additionally low losses save cost and contribute to animal performance and welfare.

With Triowrap and Triowrap plus compared to market standard, you can:

- Get a silage quality tested product
- Produce baled silage with DM-losses of 1%
- Decrease losses equal to 6-13 litres of milk per bale

In the end of the day, it’s the value of the silage that counts!

HOW TO TAKE YOUR SILAGE TO THE NEXT LEVEL

Reduce your feed losses – Triowrap products have been proven with very low losses, e.g. dry matter losses down to 1%

Be efficient in your silage making – with our Triowrap plus products you can increase your efficiency by up to 73%!

Switch to our thickness optimised Triowrap plus products, based on the PlusTech technology for reduced material usage.

Use products with recycled content – Try our products with loop inside, reducing the carbon footprint by up to 50%!

Reduce your packaging waste by switching to packaging alternatives as Sleeve or Contractorwrap.

Collect and sort plastic waste after usage for recycling – all Triowrap products are fully recyclable, including the packaging!

Wrap like the professionals – with Triowrap.

Scan the QR code or visit triowrap.com to check out our unique bale wrap guide, covering all wrappers in the market, to find the most suitable and efficient film solution for your needs:

Efficient & high-quality silage making

We know the hazards and challenges of the harvest season and
we can support you with our many years of experience.
If you need help, our silage experts and technical support team is there to support
you to improve your yield, efficiency and quality in
your silage making - all over the world.
